

Remarks

The Examiner's reconsideration of the application is urged in view of the amendments above and comments which follow.

Turning first to the specification and drawings, the Examiner, in numbered sections 1 and 2 of the Office Action, has noted an error in the application, and that has been corrected by properly identifying the tray with the reference numeral 1. Accordingly, no drawing correction is needed, and the specification is now fully consistent.

Concerning the rejection of claim 10 under 35 U.S.C. §112, claim 10 has been corrected as suggested by the Examiner. Therefore, it is submitted that the claim is now in appropriate form.

The Examiner has rejected certain of the claims in sections 6 through 16 of the Office Action, but has indicated the allowability of the subject matter of claims 5 and 6. Accordingly, claim 1 has been amended to include the subject matter of claims 2 and 5, and is therefore submitted to be in condition for allowance. The remaining claims depend from amended claim 1, and are submitted to be in condition for allowance, as well.

As this response is being submitted during the sixth month following the Examiner's Office Action, an appropriate Petition for Extension of Time is also submitted herewith.

In view of the foregoing, it is believed that this application is now in condition for allowance, and further and favorable reconsideration is urged.
